### Mini Project
**Minesweeper Game**

📅 Jan 2020 – Feb 2020

This is a python based application of mine sweeper game which uses the object oriented concepts.The python GUI ensures a greater interactive user experience due to its cut edge design and bold colors.

---

### Face Detection
**Vasireddy Venkatadri Institute of Technology**

📅 October 2021 – present

This project is the development of a web application that takes an image and perform image processing using pre-trained detection commands for face detection. Additionally,this generates the attendance for user and produces excel sheet output of the recognized faces.

## TOOLS

Git   Github

## SKILLS

Programming Languages
Python   C++   Java   C

---

Operating Systems
Windows   macOS   Linux

---

Web Technologies
HTML   JavaScript   CSS

---

Database Management Systems
SQL

## LANGUAGES

**English**   ● ● ● ● ○

---

**Telugu**   ● ● ● ● ○

## CERTIFICATIONS

- **NPTEL- Certified in joy of computing through python course with 89 %**
- **NPTEL- Certified in programming in Java with 79 %**
- **Coursera- Certified in python for Everybody course**
- Workshop
  **Frontend Development**

  📅 15 days

  In this workshop,I have learned how to develop web applications using HTML5, CSS3 and JSON.

## EXTRA-CURRICULAR

### NSS
**National Service Scheme**

📅 Jan 2018 – Feb 2020

Being a member of NSS,I have organised BALOTSAV 2019 in NAVIGATION cell
